Dear Mrs. Rubinstein:

I had thought that I might possibly be in Paris during the winter, but that does not appear very likely at this time. In view of this, I did want to write and extend greetings and best wishes to you for the coming holiday season and for the New Year. I hope that by now the construction that was disturbing your peaceful courtyard is complete and that the new building does not block too much of the Parisian sky.

With continuing best wishes and kindest regards,

Sincerely,

James W. Pruett
Chief
